RE: Lease #23127201

Dear Mrs. Alcantar,

I have received your letter and fully understand my obligation toward payment to IFC. However, what assurances and proof do you have that this matter will be resolved quickly? Furthermore, what protection is IFC going to offer to me against repossession due to their failure to keep up their end of the lease agreement? I have every right, legally, to withhold payment to IFC should my equipment get repossessed due to their failure to keep up their end of the agreement.

By law, Promax has every right to repossess the equipment for non-payment. Yet all you are offering me are empty words and promises, that which, up to the point, IFC has failed to keep.

So I ask you again, what assurances are you going to offer me?

Sincerely,

William Berg-Hillinger
