JOINT ASSOCIATION LETTER TO ALL MEMBERS OF THE U.S. CONGRESS

September 30, 2008

We are writing to express our profound disappointment in the House vote yesterday rejecting the Emergency Economic Stabilization Act, and to urge both the House and Senate to act as soon as possible this week to enact legislation to bring stability to credit markets.

The impact of the House action was painfully demonstrated yesterday when the stock market lost \$1.2 trillion as the Dow Jones Industrial Average fell 777.8 points, the largest single-day point drop in American history.

Virtually every American has witnessed their retirement, investment and savings accounts decline steeply. The evaporation of credit is affecting businesses of all sizes and consumers and we run the risk of further declines in housing values. If Congress fails to act and credit markets tighten further, our associations' members will find it more difficult -- if not impossible -- to secure credit to run their companies, and our members' employees will find it harder to get mortgages, secure auto loans, and borrow money to send their children to college.

Monday's losses in the stock market do not mark the end of the negative consequences of the House vote. Americans rely on credit and liquid markets to make our economy function, and we will continue to see our economy and the well-being of all Americans impacted unless Congress acts. Significant bipartisan work allowed Congress to draft a strong financial rescue plan with strong taxpayer protections to help stabilize the financial system and prevent a meltdown of our capital markets.

We urge you to take action this week to address this crisis.

Sincerely,
