PERPETUAL’S myriad subplots filled with grinding tension and lightning-fast action lead to a stunning climax. Along the way Matthew learns that for him, Interstate 95 was never just a road . . . it was destiny.

IN THIS FIRST NOVEL of the *Perpetual* series, Matthew, an eighteen-year-old from northern Maine with a savant-like gift for science, and Maria, a Spanish beauty intrigued with the criminal mind, run for their lives across America’s Eastern Seaboard—fleeing sinister forces of evil.

IN THE FACE OF CONSTANT DANGER, what has been a childhood attraction between the two of them grows into deep love.

PITTED AGAINST DAUNTING FORCES—U.S. government-trained assassins, the oil industry, and Middle Eastern Islamic extremists—trouble abounds for Matthew and Maria at every turn. Their allies, a disheveled FBI agent and a mysterious philanthropic tutor, may be helpless to save them. Matthew faces choices that inevitably alter his fate and the future of all those around him, choices that could change the entire world.

The author has developed a timely series with top-of-the-mind energy and environmental issues. The **PERPETUAL** novels feature colorful characters that draw the reader into their seemingly unrelated lives; lives from different generations that converge in climactic proportions.

PERPETUAL reSearch sets the stage for future novels in the *Perpetual* series with scenes spanning more than three decades set in the U.S. and across the globe. Readers will hunger after the next book in the chronicle: **PERPETUAL Development (2009)**, and **Launch (2010)**. As if pulled from the headlines each novel is enveloped in current events and each scene drips with suspense.

ENERGY SOLUTION SUPRESSED (Charlotte, North Carolina)

The author brings to his writing a wealth of experience. Grisham and Baldacci guide us through the courtroom. King transfuses us with his imagination *and nightmares*. L'Amour brought the wild west to life. Cussler gave us Dirk Pitt and mirrored many true-life adventures. Ludlum and Clancy kept us on the edge with the spy game. Now Huey weaves us through a down and dirty maze of big business and big brother government. He says, "I've experienced first hand that an attainable entrepreneurial dream must first survive a barrage of overwhelming odds."

Brian Huey was born in Westlake, Ohio. He received a BS and BA from the University of North Carolina, where he competed as a springboard diver. After working in corporate America, he ventured out as an entrepreneur. Since those early years, he has owned businesses in advertising, manufacturing, and finance, all the while writing the **PERPETUAL** series. His inspiration comes from his own adventures in life and business, he says, "I have learned the hard way that reality is stranger than fiction." Brian competes as a master's swimmer. He, his wife, and two grown children live near Charlotte, North Carolina.
