RE: Broker Relationship

As you are aware we have seen unprecedented levels of economic change that continues to reshape the financial services industry. Puget Sound Leasing has not been immune to the impacts of these conditions and continues to adjust. An overall review of our portfolio and existing Broker partner metrics has been completed. We have made the decision to inactivate our funding relationship with your organization and subsequently will be unable to accept new credit applications as of 6/30/2009. Approved transactions will be honored under standard terms and conditions.

Puget Sound would like to thank you for your prior business and wish you the best in the future.

Please feel free to contact your account representative Mike Larson with any questions.

Sincerely,

David Johnson
