Portfolio Services

U.S. Bancorp Portfolio Services' strategy is to seek out small and medium sized leasing companies and banks in the United States. We fulfil portfolio management needs through advanced systems, knowledgeable processes, and exceptionally trained employees.

Information Management Solutions

Portfolio Services partners with banks, manufacturers, captives and independent lessors to offer flexible and comprehensive financing solutions. We have merged the efficiency of a technically advanced financial system with the plug-and-play flexibility that fits the way you want to work. You maintain control of your financing program without costly operational and logistical headaches - while increasing your profitability. You can count on your Portfolio Services team to go the extra mile in the development and execution of a partnering solution. Our intent is to be recognized as the outsourcing provider of choice by offering flexible solutions to our customers and a premier servicing approach to the end users.

Commitment to the Industry

Portfolio Services is an active member in the United Association of Equipment Leasing, the Eastern Association of Equipment Leasing, the National Association of Equipment Lessors and Brokers, the Equipment Leasing Association, and the National Vehicle Leasing Association.
