"I am also happy that my friend Jim Borland at U.S. Energy Capital won his first plaque this year," Charlie Lester commented.

"Jim is a tremendous success story of a broker acquired by First Sierra and almost driven out of business in the First Sierra fiasco. After going back on his own again, Jim scratched and clawed his way back to being be a top broker at NBF and in the country. Persistence and hard work have paid off big time for Jim and his crew. Congratulations Jim!!!"
