NEW RESIDENTIAL CONSTRUCTION IN APRIL 2005

The U.S. Census Bureau and the Department of Housing and Urban Development jointly announced the following new residential construction statistics for April 2005:

BUILDING PERMITS

Privately-owned housing units authorized by building permits in April were at a seasonally adjusted annual rate of 2,129,000. This is 5.3 percent ($\pm 0.9\%$) above the revised March rate of 2,021,000 and is 2.9 percent ($\pm 1.1\%$) above the revised April 2004 estimate of 2,069,000.

Single-family authorizations in April were at a rate of 1,634,000; this is 5.3 percent ($\pm 0.9\%$) above the revised March figure of 1,552,000. Authorizations of units in buildings with five units or more were at a rate of 410,000 in April.

HOUSING STARTS

Privately-owned housing starts in April were at a seasonally adjusted annual rate of 2,038,000. This is 11.0 percent ($\pm 9.7\%$) above the revised March estimate of 1,836,000 and is 3.6 percent ($\pm 7.2\%$)* above the revised April 2004 rate of 1,968,000.

Single-family housing starts in April 2005 were at a rate of 1,635,000; this is 6.3 percent ($\pm 8.9\%$)* above the revised March figure of 1,538,000. The April rate for units in buildings with five units or more was 351,000.

HOUSING COMPLETIONS

Privately-owned housing completions in April were at a seasonally adjusted annual rate of 1,890,000. This is 7.0 percent ($\pm 9.3\%$)* above the revised March estimate of 1,766,000, but is 3.4 percent ($\pm 6.9\%$)* below the revised April 2004 rate of 1,956,000.

Single-family housing completions in April 2005 were at a rate of 1,606,000; this is 7.6 percent ($\pm 9.7\%$)* above the revised March figure of 1,492,000. The April rate for units in buildings with five units or more was 254,000.

New Residential Construction data for May 2005 will be released on Thursday, June 16, 2005, at 8:30 A.M. EDT.

EXPLANATORY NOTES

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take 4 months to establish an underlying trend for building permit authorizations, 5 months for total starts, and 6 months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent ($\pm 3.2\%$) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percent change is likely to have occurred. All ranges given for percent changes are 90-percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percent changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised about one percent. Explanations of confidence intervals and sampling variability can be found on our web site listed above.

Unadjusted estimates of housing units authorized by building permits for January through December 2004 have been revised. Also, seasonally adjusted estimates of housing units authorized by building permits, started, under construction and completed for January 2003 through March 2005 have been revised.

* 90% confidence interval includes zero. The Census Bureau does not have sufficient statistical evidence to conclude that the actual change is different from zero.

^pPreliminary. [†]Revised. RSE Relative Standard Error.

¹Average RSE for the latest 6-month period. ²Computed using unrounded data.

³See the Explanatory Notes in the accompanying text for an explanation of 90% confidence intervals.

Note: These data represent the number of housing units authorized in all months up to and including the last day of the reporting period and not started as of that date without regard to the months of original permit issuance. Cancelled, abandoned, expired, and revoked permits are excluded.
