

Ellen M. Stern, Esq.

The mainstay of my client base is the leasing industry, in which I have a multitude of connections and resources. My Fixed Fee Programs provide for a single set fee for the entire pleadings process for Claim and Delivery to recover possession of the equipment, for Relief from Stay and for Non-Dischargeability Complaints in Chapter 7s, and I also offer a wonderfully successful and inexpensive collection tool for accounts that are already 60 to 120 days past due that I laughingly entitled my SLAM and has followed with me as useful, practical and very results-oriented. I have found that as long as the client knows up-front what the cost will be the client remains understanding of and satisfied with the process. I also always quote ballpark prices for everything prior to engaging in any legal tactics, so there are no surprises for the client. My hourly rates are also highly competitive and I make many of my court appearances telephonically to reduce the cost to the client.
